Artwork preparation

- Use page 1 at full size as the artwork canvas for one metal print.
- The document includes 10 mm of bleed on every side.
- Extend backgrounds and photographs to every outside document edge.
- The red line marks the finished print size.
- Keep text, logos and faces comfortably inside the red finished edge.
- Remove all template guide marks before exporting final artwork.
- Preferred format: print-quality PDF with images and fonts embedded.
- Convert fonts to outlines if they cannot be embedded.
- Use high-quality originals; confirm file requirements with JBM Displays.

Important

Page 1 includes 10 mm bleed on all four sides. Extend your image or background to the document edge. This instruction page is for reference only.
