JBM DISPLAYS - ARTWORK TEMPLATE

Wall Hanging Banners

Finished banner size: 600 x 2000 mm

Complete document	620 x 2020 mm
Finished banner size	600 x 2000 mm
Safe zone	540 x 1940 mm
External bleed	10 mm on all sides
Safe-zone inset	30 mm inside each finished edge

Artwork preparation

- Extend all background colours and images to every outside edge of the document.
- Keep text, logos, faces and other important content inside the aqua safe zone.
- Prepare the complete 620 x 2020 mm artwork page at full size.
- Keep important details clear of the top and bottom rail grip areas.
- Remove the template guides before exporting your final print-ready artwork.
- Preferred format: print-quality PDF. Embed all images and fonts, or convert fonts to outlines.
- Image quality: 150 DPI at final document size is recommended for photographic artwork.
- Colour: use CMYK where supported. RGB is accepted when the artwork is one photographic image.
- JPG: one flattened image only, supplied full size at maximum quality.

Important

The artwork page is 620 x 2020 mm; the finished banner is 600 x 2000 mm.

Include 10 mm bleed on all sides. Remove the guides before supplying artwork.
